*Farmington High School's  
Robotics Team FRC 178*

**Mrs. Hall  
wins  
Woodie  
Flowers  
Finalist  
Award!**

On April 14th, nearly 80 enforcers consisting of current members, alumni, mentors, and coaches gathered online in a Google Meet. A judge from the New England District Championship also joined us so that we could all celebrate our coach, Mrs. Hall, for all of the loving contributions she had made over the years. We were fortunate to gather such a large crowd in the middle of Spring break because it was an amazing moment when Mrs. Hall was awarded as a Woodie Flowers Award Finalist at the New England District Championship.

The Woodie Flowers award recognizes a mentor that has done an outstanding job through communication, and they are nominated by students on the team for this award. It was truly awesome to see alumni students, and mentors together to congratulate our wonderful Woodie Flowers Award Finalist, Mrs. Hall.

# GOOSE'S TEXAS ADVENTURES

## *FIRST Robotics World Championship*

---

After becoming a semi-finalist at the Waterbury Qualifier, David has gone on to become a Dean's List Award Finalist. He qualified to attend the FIRST Robotics World Championships at the George R. Brown Convention Center in Houston Texas, bringing along the team's mascot, Goose.

At the World Championship, he visited the innovation fair to see all sorts of cool innovations from different companies. Goose has now traveled across most of the US and has also got a chance to meet the founder of FIRST, Dean Kamen, who signed our team mascot during the Dean's List Award Ceremony.

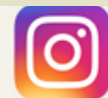

## UPCOMING BANQUET EVENT

We are hosting our end of year banquet for the first time in 3 years! A survey was sent out to students to estimate the number of attendees and food preferences. The banquet has always been a great place to share the team's accomplishments to team members' families and just to recap the year as a whole. This is also the time when a senior video is shown, honoring their contributions and time on the team. We're all looking forward to this year's banquet!
